Announcing Prime Vendor Contract with Princeton HealthCare System

NEW ROCHELLE, NEW YORK—October 17, 2007. MMS – A Medical Supply Company announced the third consecutive renewal as Prime Vendor to Princeton HealthCare System. The contract naming MMS as the primary supplier of medical/surgical products and equipment to Princeton HealthCare System is for an additional three years, through December, 2010. It is estimated that this contract represents over \$15,000,000 in revenue over its life.

Joseph Cassidy, Director of Materials Management for Princeton HealthCare System states that, “MMS is as committed to reducing our overall supply chain costs as we are. They have taken the initiative to not only manage product pricing, but to assist us in identifying and eliminating hidden costs in the way we order, receive and inventory items. Their partnership across our entire team, and ability to support all our full range of services, made the decision to renew easy.”

“MMS has been working with Princeton for over ten years.” says Gina Marchese, Vice President, General Manager of MMS East Division, “This kind of continuity allows us to really understand the dynamics of their specific organization and the different needs of their Clinicians and Support Staff at all their locations. We are proud to partner with such an outstanding and forward thinking organization.”
