MMS Expands into Florida

ST. LOUIS, MISSOURI—August 12, 2005— MMS, one of the largest independent healthcare distributors, opened their twelfth distribution center in Florida. The new facility, located in Plant City, is ideally located in the heart of central Florida and serviced by four major interchanges on Interstate 4.

The Florida facility represents the ninth location added since 1996 further strengthening MMS's position as a regional distributor with a national presence.

“Our Long Term Care team has been effective in generating enough new and potential sales to justify this new location. This means that we can now effectively service Florida's 17+ million residents of the sunshine state,” said Bernie Thien, Vice President - Logistics, MMS.
