

Online Training

for your Nursing Staff

**MEDCOM[®]
TRAINEX**

MMS has partnered with Medcom, a leader in nursing education for over 50 years. Through this partnership, you can save time and money with access to interactive courses for your nursing staff and an easy-to-use tracking system.

Meet challenging education needs with access to online courses for:

- Continuing Nursing Education
- Continuing Nursing Home Administration Education
- CNA Inservice Education
- Clinical Skills
- OSHA Compliance

As a T3 subscriber you and your staff will have the benefits of:

- Unlimited access to online programs
- Convenient education anywhere...anytime
- Convenient, single location record-keeping
- Unlimited and instant continuing education/certificates of completion
- Customize your training, testing and tracking

T3 Learning Management System Features

- Requires username and password to access courses and administrative functions.
- Secure server, guaranteeing that sensitive information is protected.
- Complete training courses online from anyplace with Internet access.
- Complete post tests online with immediate scoring and certificates.
- All user data is stored on Medcom's server in each customer's own unique database.
- A selection of utilization reports sorted by cost center, user, job code, or course.
- Determine which managers can manage which users, and who can add or modify staff members, and work with specified reports.
- Design a curriculum or let your staff build their own.
- Staff can review their completed courses and view / print certificates at any time. Individuals can print copies of their records for submission to licensing and credentialing organizations.
- Download test data into your favorite database or spreadsheet software to generate your own customized reports.
- Can include a remediation function to show staff members which questions were answered incorrectly. Upon completion of the post test, shows the user which question they answered incorrectly.
- "MyCE" feature permits staff to record courses that they have completed elsewhere.

Medcom's T3 Online Courses with a Learning Management System is Your Anytime, Anywhere Education Solution!
